The editors of *LIFE* Books have created definitive photography books on crucial events in American history. Now they commemorate the achievements of presidential candidate Barack Obama with a richly illustrated biography. This book features intimate photos from his childhood through his run for the White House coupled with exclusive essays from some of America's most insightful and eloquent commentators.

- **THE AMERICAN JOURNEY OF BARACK OBAMA** covers the candidate from his childhood and adolescence to his time as editor of *The Harvard Law Review* and his Chicago activist years, culminating with the excitement and fervor of the historic 2008 Democratic National Convention. It will become a classic record of a landmark life.
- The editors of *LIFE* Books have produced some of the most stunning photographic records of America's turning points, from the attack on Pearl Harbor to President John F. Kennedy's Camelot years to the horrific events of 9/11, including *One Nation: America Remembers September 11, 2001* (Little, Brown and Company, 11/01), with more than 1.3 million copies sold; *LIFE: World War II* (Bulfinch, 10/01), with more than 165,000 copies sold; and *LIFE: Our Century in Pictures* (Bulfinch, 10/99), with more than 622,000 copies sold.
