

Coming May 19th...UNTITLED

Lying inside a high security vault, deep within the heart of one of the world's leading museums, is an extraordinary specimen that could be the most important scientific discovery of recent times. Fewer than a dozen experts know of its existence; its value to the world is inestimable. This is a discovery that will change textbooks, change science, and change how we understand the human race.

The author of UNTITLED has been given exclusive access to all of the research and the team of top scientists who have been validating the discovery, the announcement of which will send shock waves around the world.
