# JAMES PATTERSON

*The world all around you.  
Life as you know it.  
Everything you love.  
It all changes . . . now.*

Everything is about to change. The government has seized control of every aspect of society, and now kids are disappearing.

For 15 year-old Wisty and her older brother Whit, life turns upside-down when they are hauled out of bed one night, separated from their parents, and thrown into a secret compound for no apparent reason. It's clear that the new government will stop at nothing to suppress Life, Liberty, and the Pursuit of Being a Normal Teenager.

Locked inside their cells, the two come to realize that a daring escape is their only hope of survival. When the sister and brother start exhibiting strange abilities and powers they never knew they possessed, their new talents lead them to believe that maybe there is a reason they were singled out.

Can this newly minted witch and wizard master their skills in time to save themselves, their parents—and maybe the world?
