BONEMAN'S DAUGHTERS

Ted Dekker

"[It] doesn't just get under your skin. It crawls there, nests, and raises its head with a bitter tug, as if it's living within you."

—Brad Meltzer, Bestselling author of *The Book of Lies*

"Ted Dekker is a true master of thrillers, and this is his best."

—Nelson DeMille, Bestselling author of *The Gate House*

The international breakout thriller by *NY Times* bestseller Ted Dekker, now in mass market. Terrifying and compelling, *BONEMAN'S DAUGHTERS* is about a serial killer called BoneMan who chooses young girls as his prey. Meanwhile, a military intelligence officer is captured in Fallujah, and his Iraqi captor threatens the life of his wife and daughter at home. And he appears to have a link with BoneMan.

Special analyst Ryan Evans is sent to Fallujah to suss out critical Al Queda, but is caught in a roadside attack and captured by Mustafa Kahlid, who loses no time in beginning the torturous process of breaking down Ryan's defenses. Projected in front of his immobile face are images of a gruesome travesty that Ryan can identify with: the lifeless bodies of seven American girls whose bodies have been broken, literally, by the serial killer known in the U.S. as the BoneMan. "Obviously you Americans can't understand the evil that you are inflicting on innocent women and children in our land, so I have provided you with something that you can understand: the torture and death of your," Kahlid tells Evans. "You have a choice: kill seven children by breaking their bones here in this cell—or one of our cells in America will kill your wife and child."
