New York Times bestselling author Jacquelyn Frank draws you in to the world of the Sänge, an unorthodox race as enigmatic as they are irresistible...

Since he became Prime of the Sänge, Reule has upheld his responsibilities tirelessly, using his telepathic gifts to protect his people from other tribes wary of their dark customs and fierce sensuality. But nothing in his experience compares to the intensity of emotion radiating from the outlander female rescued by his Pack. Terrified, wounded, but beautiful beyond measure, Mystique baffles Reule at every turn and shatters the control that usually comes so naturally to him.

Mystique has few memories on awakening. All she feels with certainty is overwhelming desire for her imposing rescuer, though her presence at the Sänge court is unsettling the Pack and may be putting her life in deeper jeopardy. Someone sought to destroy her before, someone who may still be close at hand. And as she pieces together her identity and her own powers are revealed, Mystique must trust in a passion that goes beyond logic, beyond understanding, to a destiny that is greater than them both.
