CLOSER THAN BLOOD

Gregg Olsen

"Olsen will have you on the edge of your seat."

#1 International Bestselling Author Lee Child

As the local high-school Class of '95 alumni prepare for their 15th year reunion, old wounds are reopened and old scores erupt in violence. Kitsap County Sheriff's Detective Kendall Stark is the lightning rod for action involving three murders – all connected to two classmates, twin sisters Lainie and Stevie O'Neal. Lainie and Stevie shared a strong bond when they grew up. Though they were identical twins, things seemed easier for Lainie (the prettier twin, the funnier twin, the smarter twin). They were also somewhat competitive (for school honors, boyfriends, their parents' love). And like many twins, they feel each other's emotions and each other's pains (and even dreams).

A few months before high-school graduation, Lainie and Stevie were involved in an accident that killed a classmate. Stevie was cited for the accident and sent to juvenile detention and released on her 18th birthday. But certain crucial details about the accident have not been revealed—until now.

"Complex mystery, crackling authenticity...lurid, carefully distributed details...will keep fans of crime fiction hooked."
