## DELIVERING HAPPINESS : A PATH TO PROFITS, PASSION, AND PURPOSE TONY HSIEH

"This book is awesome. How Tony and Zappos grew to \$1 billion in gross revenue in 10 years is just the beginning. From fundraising to finding happiness, from actual e-mails to checklists, it covers it all. Intensely personal and intensely practical."  
—Tim Ferriss, #1 *New York Times* bestselling author.

The hip, iconoclastic CEO of Zappos shows how a different kind of corporate culture can make a huge difference in achieving remarkable results—by actually creating a company culture that values happiness—and then delivers on it, including: paying brand-new employees \$2,000 to quit, making customer service the responsibility of the entire company—not just a department, focusing on company culture as the #1 priority, applying research from the science of happiness to running a business, helping employees grow—both personally and professionally and seeking to change the world.

In *DELIVERING HAPPINESS*, Zappos CEO Tony Hsieh shares the different lessons he has learned in business and life. Fast-paced and down-to-earth, *DELIVERING HAPPINESS* shows how a very different kind of corporate culture is a powerful model for achieving success—and how by concentrating on the happiness of those around you, you can dramatically increase your own.

**TONY HSIEH** became involved with Zappos as an advisor and investor in 1999, about two months after the company was founded. He eventually joined Zappos full time in 2000.
