## START-UP NATION : THE STORY OF ISRAEL'S ECONOMIC MIRACLE DAN SENOR, SAUL SINGER

START-UP NATION addresses the trillion dollar question: how is it that Israel—a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources—produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK?

With the savvy of foreign policy insiders, Dan Senor and Saul Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality—all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. There's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

In hardcover, START-UP NATION hit the *New York Times*, *Washington Post* and *Wall Street Journal* bestseller lists. It received outstanding praise from the *Wall Street Journal*, *Barron's*, *Jerusalem Post*, *Publishers Weekly* and other publications.
