## WICKED LIES

LISA JACKSON; NANCY BUSH

Justice Turnbull paces his room at Halo Valley Security Hospital on the Oregon coast, planning his escape. His psychiatrist thinks Justice is reformed, remorseful. He's dead wrong. It's been twenty years since the murder of Jessie Brentwood, a high school student born into the Colony at Siren Song. But Jessie was only one of many who must be punished for belonging to that cult of evil. And Lorelei is at the top of Justice's list...

Laura Adderly didn't plan to get pregnant by her soon-to-be-ex-husband, though she'll do anything to protect her baby. But now reporter Harrison Frost is asking questions about Justice's disappearance and delving into the Colony's colorful and sordid past. Harrison hasn't figured out Laura's connection to the story yet. But lately Laura hears a voice drawing nearer, whispering her given name--Lorelei--the name no one else knows. And the soul numbing terror tells her, beyond doubt, that Justice is coming for her.

All her life, Laura has been able to sense approaching evil. But that won't stop a psychopath bent on destruction. Justice has been unleashed, and this time, there will be no place safe to hide.
