

A MODERN CLASSIC ON THE HUMAN COST OF WAR & VIOLENCE

Revised & Updated

ON KILLING (REVISED): THE PSYCHOLOGICAL COST OF LEARNING TO KILL IN WAR...

Lt. Col. Dave Grossman

An "illuminating account of how soldiers learn to kill and how they live with the experience of having killed." —*Washington Post*

"Full of arresting observations and insights...that make you alter the way you have thought about a certain subject....A powerfully argued explanation." —*New York Times*

Upon its initial publication, ON KILLING was hailed as a landmark study of the techniques the military uses to overcome the powerful reluctance to kill, of how killing affects soldiers, and of the societal implications of escalating violence. Now, Grossman has updated this classic work to include information on 21st-century military conflicts, recent trends in crime, suicide bombings, school shootings, and more. The result is a work certain to be relevant and important for decades to come.

ON KILLING was nominated for a Pulitzer Prize and has been translated into Japanese, Korean, and German. It is on the US Marine Corps' recommended reading list; and is required reading at the FBI academy and numerous other academies and colleges.
